

2011

Epi Seminar Series

Targets and dynamics of promoter DNA methylation during early mouse development

Richard Ahn, M.A.

PhD Student

UC Irvine Department of Epidemiology

Richard Ahn will present the following *Nature Genetics* paper published paper by Dr. Borgel, et.al., of the Institute of Molecular Genetics, Centre National de la Recherche Scientifique, Université Montpellier, Montpellier, France.

➔ Borgel, J., Guibert, S., Li, Y., Chiba, H., Schubeler, D., Sasaki, H., Forne, T., et al. (2010). Targets and dynamics of promoter DNA methylation during early mouse development. *Nat Genet*, 42(12), 1093-1100. doi:10.1038/ng.708

Bio: Richard Ahn is a first year PhD student in epidemiology. Prior to joining the PhD program, he served as a statistical programmer for UC Irvine's Health Policy Research Institute. In addition to his current doctoral studies, Richard works as a graduate student researcher with Dr. Chad Garner of the Department of Epidemiology.

Co-Sponsored by the
Department of
Epidemiology
and the
Genetic Epidemiology
Research Institute.

Friday, 12:30 pm – 2 pm

4 February 2011

Irvine Hall Conference Center

Room 206

UC Irvine Campus
